Sketch

Inspector

I understand a Permit is required to install, repair, alter or extend any part of this Individual Water Supply or Sewage System and that no work may be started until this Permit is issued.

Signed

INSPECTED BY Steve Bruce

Let bore out existing 4" line, install new tank lines, each one 50' x 3'. One new line located above existing line 3 ft. apart - let new lines feed first and keep old lines intact.

FINAL INSPECTION BY Larry Fuller DATE 2-27-84
