Come home to quality.
Andersen
VANTAGE

This two story home has a one of a kind floor plan with an elegant exterior that makes this residence a great family home for any region. The raised covered entry leads into the foyer and grand living areas. The formal living room ahead has corner glass doors that slide into the wall revealing the outdoor covered lanai. The dining room also has a high step ceiling and a built-in server. Arches lead to the family area. Here is an open kitchen, nook and leisure room open to the rear yard views while keeping focus towards the corner built-in entertainment center. On the master wing, a large study, suite and glamourous bath highlight the comfortable living for the owners. Here a large walk-in wardrobe closet, dressing table, his and her lavatories, a walk-in shower and a private garden make up the bath. By the stairs, a secondary guest suite has a private bath. Upstairs, two suites share a bath. A loft has a morning kitchen space and access to a covered observation deck. The loft is a perfect recreation room, media space or kids play area. This home with its unique elevation is a perfect match to the well planned family layout.

PLAN 6721
3,958 SQ. FT. LIVING AREA
Four bedroom, three and a half bath plus study
