Columns and keystone lintels lend a European aura to this stone-and-siding home. Arched openings and decorative columns define the formal dining room to the left of the foyer. A ribbon of windows with transoms above draws sunshine into the living room. The master suite opens from a short hallway, and enjoys a tray ceiling, vaulted bathroom with shelving, compartmented toilet, separate shower and garden tub. Transoms abound in the open informal living areas of this home. A bay-windowed breakfast nook adjoins the kitchen with a central serving bar and the family room with a warming fireplace. Two additional bedrooms share a full bath to the left of the plan. Please specify basement or crawlspace foundation when ordering.
