Description

Waves of sunlight break on the wide windows of this charming home, flowing over the family spaces below. Craftsman-style detailing adds traditional flair to the striking facade. The family room showcases a handsome fireplace and overlooks a wide screened porch. The cozy, adjacent library has built-in shelves and a wide built-in desk. The spacious kitchen serves the most boisterous family with ease. An eating bar takes care of meals on the go, and a broad, rear terrace is only a few steps away. Around the corner, the dining room hosts formal meals in true style. The master suite is an isolated paradise. French doors lead to a just-for-two porch, and the private bath hosts a whirlpool tub and two vanities. Upstairs, two bedrooms—one with its own porch—share a full bath. Tucked above the foyer, twin sleeping lofts ensure that there's always room for guests—not to mention a grand view. **An exclusive design for *Southern Living*® by Mouzon Design**
