The Sater Design Collection Inc.

LOT 26

VANTAGE

This special home uniquely blends a dormer raised entry, tower detailing, brick or stone and stucco to give it a southern traditional feel. The look is balanced and simply elegant. Inside the home, the openness of the floor plan allows the formal spaces to feel grand while allowing the outdoors in. Corner pocketing sliding glass doors at the living room let the lanai become part of the home. Arches lead past the cabana powder bath to the kitchen nook and leisure room. The area is perfect for family gatherings where the focus is towards the corner entertainment center unit. The kitchen is well laid out and features a pantry, prep island, eating bar and dry bar area. The bath is generous with his and her lavatories, a walk-in shower, a private water closet and bidet, private garden tub and a huge walk-in wardrobe closet.

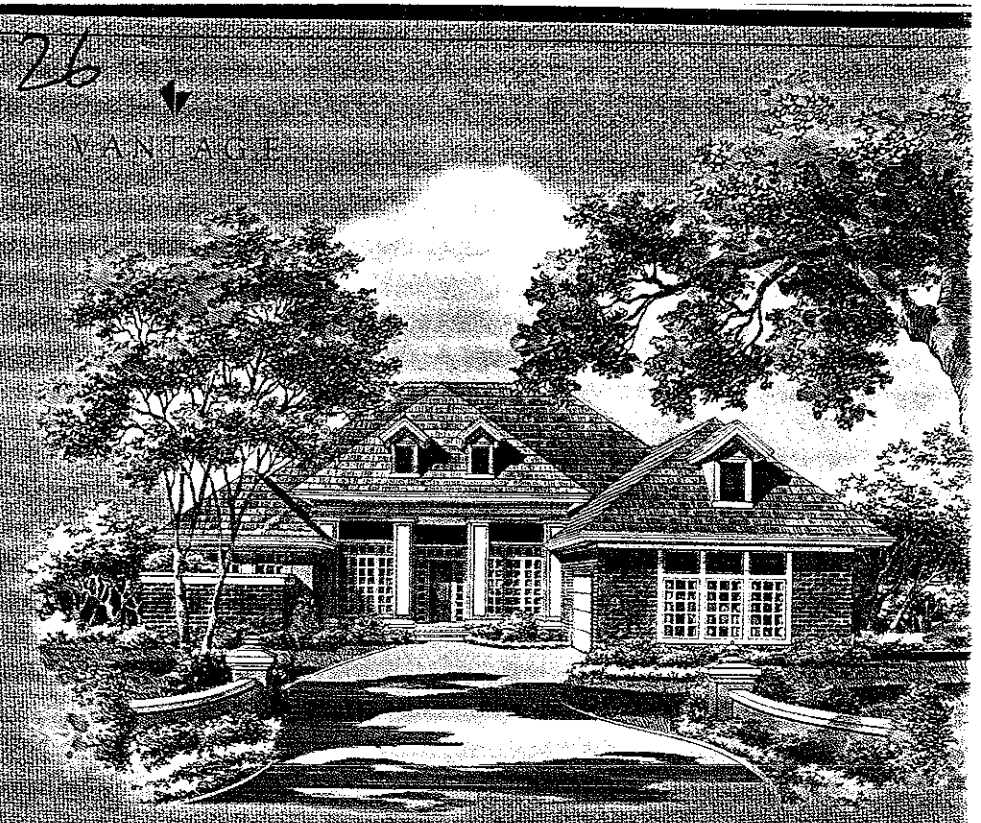

PLAN 6710/6719
