The Jewell
Plan 1079

© 2004 Donald A. Gardner, Inc.

Low-maintenance siding and brick blend together beautifully. Keystones top curved transoms, and the front-entry garage creates convenience. A column and tray ceiling distinguish the dining room, while a cathedral ceiling and fireplace enhance the great room. French doors lead to the rear porch. A breakfast bar acts as a serving counter to the great room. The master bedroom features a soaring cathedral ceiling and large walk-in closet. With a double vanity, shower with seat, garden tub and private privy, the master bath is ready to spoil homeowners. The bonus room lies just off the master bedroom and could make a great home gym.
