The Iverson
Plan 1023

© 2003 Donald A. Gardner, Inc.

This home defines casual grace. Bold columns and a barrel-vaulted entryway create a dramatic impression, while porches provide outdoor living space for relaxation. Inside, the floorplan is open and family-friendly. Custom-styled ceiling treatments include a tray in the dining room and cathedrals in the master bedroom and great room. The kitchen features a smart angled counter and a walk-in pantry, and also enjoys a view of the great room's fireplace. Two secondary bedrooms share a full bath, and the master suite is located in the quiet zone of the house. The master bath is complete with a double vanity, separate shower, garden tub and private privy.
