IREDELL COUNTY HEALTH DEPARTMENT

318 Turnersburg Highway • Statesville, North Carolina 28625 • (704) 878-5300

Raymond R. Rabe
Health Director

January 14, 1999

Dear Environmental Health Customer:

When the revised Iredell County Health Department Environmental Health Division user fee schedule was approved in January, 1996 the Boards of Health and County Commissioners approved the stipulation that outstanding fees owed for septic tank permits be paid within two weeks of preparation of the permit for signature and issuance. Failure to meet this two-week deadline would void all work performed by the health department toward the issuance of the permit.

Iredell County Environmental Health is holding one or more permit documents in your name awaiting your signature and/or payment of a fee balance. The department will hold the document(s) until February 12, 1999, after which time the work will be discarded. Note that all fees paid to the department for work done to this point are nonrefundable.

We hope you appreciate the reminder and take advantage of this final opportunity to secure your health department permit(s).

Sincerely,

Kelly R. Sheeks, RS
Environmental Health Supervisor

Name Sims Marsh

Number Of Permits 1

Total Fees Owed $175.00
