This lovely two-story design offers a world of comfort within. Double doors open to an entry that is flanked on either side by a formal dining room and den. A see-through fireplace warms the great room, which is also brightened by a wall of windows at the rear. The snack-bar kitchen and bayed breakfast room provide a casual setting to relax and enjoy family meals. The first-floor master suite enjoys a walk-in closet/dressing area and a private whirlpool bath. Three additional family bedrooms are found upstairs. A garage and laundry room complete this plan.
