FLOOR PLAN

CUSTOM FEATURES PROVIDE AN ELEGANCE TO THIS HOME

PLAN NO. D4N91730—The simplicity of the three-bedroom home embraces an elegance with its stucco siding, round columns, arched windows and copper dormer roofs. An added special feature to this plan is the sun room with hot tub adjacent to and accessible to both the master bath and great room. Great room has fireplace, cathedral ceiling, and sliding glass door with arched window above to allow penetration of natural light. Spacious master bedroom has walk-in closet and master bath with double bowl vanity, shower, and garden tub. Other two bedrooms are located at the other end of house for privacy. Master bedroom and breakfast have vaulted ceiling at arched window to allow maximum penetration of natural light. Garage is connected to house with breezeway for flexibility. Plan includes a crawl space foundation. The square footage for the plan is as follows: Living area—1,899 sq.ft. Sun room—133 sq.ft. Garage—441 sq.ft.
