Width 85'
Depth 85'

A beautiful curved portico provides a majestic entrance to this one-story home. Curved ceilings in the formal living and dining rooms continue the extraordinary style. To the left of the foyer is a den/bedroom with a private bath, ideal for use as a guest suite. The exquisite master suite features a see-through fireplace and an exercise area with a wet bar. A sumptuous soaking tub and island shower in the master bath invite relaxation. The family wing is geared for casual living with a powder room/patio bath, a huge island kitchen with a walk-in pantry, a glass-walled breakfast nook and a grand family room with a fireplace and media wall. Two family bedrooms share a private bath.
