French-inspired elegance joins precise proportioning and handsome detailing to give the St. Rémy exterior its distinctive flavor. Subtle arches and decorative ironwork accentuate the romantic charm and beauty of European styling.

Inside, a new spirit prevails. Interior spaces flow easily between formal and casual living areas. The carefully arranged second floor includes three bedrooms and a future rec room. Ceiling heights are 9 feet downstairs and 8 feet upstairs.

William E. Poole Designs, Inc., of Wilmington, North Carolina, suggests an exterior of painted brick to adhere to the French styling.
