Rt. 6, Box 32
Mooresville, NC 28115

April 15, 1982

Mr. David Hinson
Health Department
Mooresville, NC

Dear Mr. Hinson:

Several days ago, you visited my home at Route 6, Box 32, Mooresville, NC for the purpose of locating my septic tank and drain line. This visit was in conjunction with my request for a building permit to add a double garage to my home. However, you could not locate the septic tank or drain line by ordinary "probe" method.

I was told at purchase time six years ago that the septic tank was in front of my home on the lake side, approximately ten feet from my front door. Yesterday, I called the former owner, Mr. Harry Bizzell, Jr. (523-6581) and again confirmed the location of the septic tank. There is question as to whether the drain line goes to the left or right of the septic tank. Mr. Bizzell could not affirmatively state left or right.

Nevertheless, the septic tank and drain line is remote from the area I wish to add the double garage. The double garage will in no way affect the septic system.

I shall further hold harmless the Health Department in the unlikely event my septic system would be affected by the addition of the double garage.

Sincerely,

Tony M. Harrington

Tony M. Harrington
