Subsurface Wastewater Maintenance Agreement

Low Pressure Pipe On-Site Sewage Disposal System with Biofilter Pretreatment

The following items and conditions for the monitoring and inspection of the conventional system located at **496 GREENBAY ROAD, MOORESVILLE NC 28117** are in compliance with the North Carolina Rules for Sewage Treatment and Disposal.

Lake Norman Sewer and Septic Services, LLC will provide the services of a Certified Subsurface Operator and will provide the required inspections and maintenance/monitoring services for a period of one year from the date of this agreement. The cost for one year is $300.00 payable at the time this contract is signed.

Twice-yearly site visits shall include the following:

1. Septic tank shall be inspected for influent/effluent line blockage, water tightness, structural integrity and level of solids accumulation.
2. Pump tanks shall be inspected for structural integrity, water tightness and solids accumulation.
3. Pumps, control floats and alarm system shall be checked for proper operation.
4. Control panel and other electrical components shall be inspected to field-verify proper operation including timer settings.
5. Lateral field area shall be inspected for seepage, saturation, settled ground surface, broken pipes or other components, maintenance of appropriate vegetation, protection from traffic and diversion of surface water.
6. All laterals shall be flushed of solids accumulation using pump pressure or other means, as needed.
7. Pressure head in each subfield shall be set according to the design specifications. Dosing rate (gallons per minute) shall be measured and recorded for the entire system after each subfield has been flushed and head has been set. Dosing volume (drawdown) shall be set according to design specifications or adjusted as determined by the certified operator.
8. **Biofilter shall be checked for structural integrity, water tightness, proper air circulation around module lids and maintenance of media.**
9. **Sample chamber effluent shall be visually checked.**
10. **Samples shall be collected and analyzed according to permit requirements.**

Lake Norman Sewer and Septic Services, LLC, a full service provider, may subcontract with such manufacturers, suppliers and other subcontractors as it deems desirable to perform any of Lake Norman Sewer and Septic Services, LLC's duties under the Agreement. Lake Norman Sewer and Septic Services, LLC shall remain responsible for the performance of all work performed by subcontractors. There shall be additional charges for any of the following, whether performed during a regularly scheduled visit or during additional visits requested by **LISA WINE**.

- Repair or replacement of broken pipes or fittings.
- Repairs to pump, controls or other components.

LAKE NORMAN SEWER & SEPTIC®

Contract for Inspections of On-Site Wastewater Systems (Type IV & V)

This Contract is entered into this 14TH day of **DECEMBER 2015** by and between Lake Norman Sewer and Septic Services, LLC, a full service provider and a North Carolina company of Lincoln County, North Carolina (hereinafter the "ORC" or Operator in Responsible Charge) and **LISA WINE** (hereinafter "The Owner").

Preamble

The ORC is contracting with The Owner to provide inspection services as described on Attachment A for the fees or charges also shown in Attachment A.

The Owner owns or controls the property upon which a ground absorption sewage treatment system ("System") is installed, such System being designated as a type II, III, IV or V system under the Rules for Sanitary Sewage Collection. Treatment and Disposal found at 15A NC Admin. Code 18A.1900 et seq.; and 15A NC Admin. Code 18A.1961 requires that a condition of the Operation Permit for Type IV & V systems be that a properly executed inspection contract between the System Owner and a management entity shall be in effect for as long as the System is in use. The ORC is a management entity which employs certified operators of a type authorized by 15A NC Admin. Code 18a.1961 to manage and inspect type II, III, IV and V systems.

In consideration of the premises and of the mutual covenants and promises contained in the Agreement, it is hereby agreed by and between the Owner and the ORC as stipulated below.

Conditions of the Contract

A. The ORC, in consideration of the payment by the Owner as set out in the schedule of services and charges in Attachment A, incorporated herein, agrees:
   1. To provide the services set out in Attachment A according to the minimum schedule of inspections/services required by regulations for the lots or parcels set out in Attachment B.
   2. To report results of the inspections to the local environmental regulatory agency having jurisdiction as required by applicable laws or regulations.
   3. If inspections indicate the need for system repairs:
      a. to notify the local environmental regulatory agency within 48 hours.
      b. to give notice to the Owner of needed repairs and if the necessary repairs are outside the scope of the routine maintenance described in the Maintenance Agreement, then the Owner may request the ORC to provide an estimate. At the authorization of the Owner the ORC will perform the necessary repairs at the ORC's then-prevailing charges for services and materials.
   4. If the ORC's services are terminated, the ORC will notify the local environmental regulatory agency within 48 hours.

B. The Owner, in consideration of the services performed, agrees:
   1. To pay the ORC for its services according to the schedule of charges as set out in the Maintenance Agreement.

2. Within 30 days of receipt of notice of repairs under A (3) above, the Owner(s) must provide proof that repairs have been performed by a licensed or qualified entity and the system is functioning properly or request and authorize the ORC to complete the needed repairs.
3. To notify the ORC promptly of any emergency or malfunction known to it which may violate environmental, health or other laws and regulations and to authorize immediate repair as necessary to restore the system to proper function and operation.
4. To use reasonable efforts to provide and to maintain at all times, such access to the system as is reasonably necessary for the ORC to comply with its obligations under this Agreement.

Terms of the Agreement

1. This Agreement shall be effective for **one year** from the date of this contract. This contract will have to be renewed each year.
2. The real property to be serviced under this contract is listed on the Maintenance Agreement.
3. This Agreement automatically terminates if the Operation Permit for the system is revoked and all appeals of the revocation are exhausted or time for making an appeal has passed.
4. The parties may terminate at the end of the then current term by consent of each party or by not less than 60 days written notice to other party prior to the end of the then current contract year, and not less than 30 days written notice to the local environmental regulatory agency.
5. This Agreement may be terminated for cause for breach which remains unremedied after 15 days written notice to the defaulting party.
