With a decided Traditional flavor, this two-story home features country living at its best. The foyer opens to a study or living room on the left. The dining room on the right offers large proportions and full windows with a view of the lake. The family room remains open to the kitchen and breakfast room. Here, sunny meals are guaranteed with a bay window overlooking the rear yard. In the master suite, a bayed sitting area, a walk-in closet and a pampering bath are sure to please. Upstairs, two bedrooms flank a loft or study area and a full hall bath.
