dated January 15, 1991, reference to which is hereby made for greater certainty of description.

AND WHEREAS the Grantor has constructed an underground septic system across and upon said lands of the First Part, and it is the right and privilege whereby the said is reasonably necessary for the purpose of inspecting, maintaining, and repairing said system, provided that in connection therewith said system shall be laid at such depth as not to interfere with agricultural operations, and provided that the Grantee shall restore all surplus earth, making level the surface of the ground above such system, and leave as little as is reasonably possible of the said lands, hedges or other improvements upon the lands of the said party of the First Part.

AND the Grantee doth hereby grant unto the Grantor the right and privilege to enter upon the said lands of the Second Part, their heirs, successors, and assigns, for the purpose of laying across the said lands a pipeline to connect with the said septic system, and to maintain, repair, and replace the said pipeline, provided that in connection therewith the Grantor shall restore all surplus earth, making level the surface of the ground above such pipeline, and leave as little as is reasonably possible of the said lands, hedges or other improvements upon the lands of the said party of the First Part.

IN TESTIMONY WHEREOF, each party of the first part has hereunto set his hand and seal the day and year first above written.
