Keith & Abby Whitehead

Attn: Wisley

664-973

● This European-inspired cottage contains one of the most efficient floor plans available. From the formal dining room at the front of the plan to the commodious great room at the rear, it accommodates various lifestyles in less than 2,000 square feet. An opulent master suite with deck access and grand bath dominates the right wing of the house. Two family bedrooms and a full bath are found to the left. There's even a powder room for guests. The gourmet-style kitchen has an attached breakfast area with glassed bay for sunny brunches. Bonus space in the basement allows for future development.
