Mr. Aldridge:

Michael Athanas & Associates (MA&A) met with the current owner of the lot referenced above, Mr. James Joyner. Mr. Joyner recently received a variance from Iredell County Zoning Department in reference to the setback for this lot, as a result Mr. Joyner wishes to make a slight adjustment to the repair area of this lot, specifically lateral 2 P (35'). When this lot was designed initially, necessary repair was 320', 347' was provided. Therefore MA&A removed 2 P in order to meet the necessary setback from the new house location and maintain 50 from the well location. Fifteen feet of repair will be placed above 1 B, totaling 327' of panel repair, in the previously approved soils area.

If you have any questions or concerns, please feel free to contact me. If I can be of any further assistance, please feel free to call.

Sincerely,

Michael Athanas

The Iredell County Zoning Board of Adjustment met at a regularly scheduled meeting on Thursday, December 15, 2016 at 6:00 p.m. in the Commissioners Meeting Room of the Iredell County Government Center (Old Courthouse) at 200 S. Center Street in Statesville, NC.

ABSENT

Chairman West called the meeting to order and Mr. Dellinger had opening prayer.

***Chairman West declared the public hearing open.** He then swore/affirmed in those wishing to speak in regard to the following cases.*

Ms. Harper presented the following case:

BOA CASE NO. 161215-1; James and Shannon Joyner (owner and applicant)

EXPLANTION OF THE REQUEST

The applicant is requesting relief of 12.9 feet from the 35 foot front setback and 10.5 feet from the 35 foot rear setback per Section 2.5 of the Iredell County Land Development Code in order for a proposed home to be located 22.1 feet from the front property line and 24.5 feet from the rear property line.

OWNER/APPLICANT

Owners/Applicants: James & Shannon Joyner
8030 Shipps Lane
Denver, NC 28037

PROPERTY INFORMATION

LOCATION: 165 Perrin Drive in Mooresville, NC; more specifically identified as PIN 4645561190.

DIRECTIONS: Williamson Road, right on Alcove Road, right on Perrin Drive, on the left.

SURROUNDING LAND USE: This property is surrounded by residential uses and Lake Norman.

house.

Mr. Joyner explained that granting the variance would allow the home to be built without interfering with the septic.

Mr. Joyner said there is underground pipe between his lot and the adjoining lot. He said after a heavy rain there is a stream that runs between the two lots. Mr. Joyner said the variance would allow the house to be located a little further away from the property line. This would help minimize any impact on the neighboring lot.

Mr. McCombs asked if the house will fit into the 40x70 plan on the septic permit. Mr. Joyner said it has been difficult to find a house plan that will fit.

Lori Godwin, adjoining property owner, spoke in favor the variance request. Ms. Godwin explained she owns the other part of the lot that was divided. She said that she has a driveway and septic on the Joyner's property. These circumstances along with the setbacks prove it hard to build on the lot.

THOSE SPEAKING ABOUT THE REQUEST

Gary Ward, resident of 144 Perrin Drive, shared his concern over storm water issues. He said if construction of the home elevates the property the water would back up further and would cause harm to adjoining property owners. Mr. Ward said at times water backs up into his yard.

Mr. Ward said he would like to know what size home is being built on the lot. He said the previous owners of the property told him that no one would build on the lot. He said the new house may impact his view of the lake.

Chairman West asked Mr. Ward to explain what impact a house at a lower elevation would have. Mr. Ward said if the house impedes the flow, the water will back up causing damage.

Mr. Dellinger asked if Perrin Drive is a private road. Ms. Harper said no. Mr. Dellinger encouraged Mr. Ward to speak with the NCDOT about the culvert. Ms. Harper reminded the board that according to the county ordinance the direction of the water flow cannot be changed.

Ms. Harper said grading of the property is going to happen whether or not the variance is granted. If the variance is not granted the house would be smaller but taller.

Mr. Joyner said he feels that the variance would help with Mr. Ward's concerns as the location of the house may prevent water backing up.

At this time, Ms. Harper submitted the staff report as evidence.

The Board went over the Variance check sheet

1. There are special circumstances or conditions affecting the property such that the strict application of the provisions of the Ordinance would cause unnecessary hardship.

DECISION: Mr. Dellinger made a motion to **APPROVE** the Variance based on the Findings of Fact, and the evidence submitted. Mr. Gregory seconded said motion and all were in favor. VOTES: 6-0

ADJOURNMENT: There being no further business, Chairman West declared the meeting adjourned at 6:55 p.m.
