RE: Deletion of a Public Water Supply System
Hager's Point MHP
01-49-144, Iredell County

Dear Mr. Hager:

On April 16, 2002 and April 18, 2002, a visit of the water system serving the referenced mobile home park was conducted. During these visits, we confirmed the number of connections and the population of the system. We learned that less than 15 connections and less than 25 people use one well and less than 15 connections and less than 25 people use another well. Both of the wells that serve the mobile home park are owned by different individuals. Under these conditions, the water system is not considered a public water supply. Therefore, this system will be deleted from our inventory. However, if this system ever becomes a public water supply again, the system must comply with the current Rules Governing Public Water Supplies.

If you should have any questions or need assistance, please contact me at 704/663-1699, ext. 279.

Sincerely,

Jeffrey H. Westmoreland, E. I.

RE: Hager Point Mobile Home Park

Ben,
In general, as long as nothing is being added and nothing is encroaching upon the well, a mobile home can be swapped for another in a pre-existing well situation, where the well is greater than fifty feet but less than one hundred feet to the closest septic system.

Subject: Hager Point Mobile Home Park

John,

Is there any way that I can get something in writing about the mobile home park situation that we discussed? I would like to have something on file just in case something like this comes up again. Thanks for your help.

Thanks,
