DUKE POWER

September 23, 1993

Mr. Winfred Bridges
Lot #11
Clipper Run
Mooresville, North Carolina

Subject: Septic Line System of Right of Way

Dear Mr. Bridges:

This is in response to your inquiring about placing septic lines on right of way of Marshall - Winecoff 230KV near tower #43 and the parallel Brawley School 44KV near pole #40.

Duke Power will not object to your septic lines being installed on its right of way as shown on Iredell County Health Department Permit dated 09-09-93. Prior to construction an on site meeting is required.

It is agreed that you will save harmless Duke Power against any and all claims or repairs of this sewer line now or in the future.

If I can be of further help, please call.

Very truly yours,

C. J. Wallace
