● This charming budget-conscious design provides an abundance of living space. Radiating around the roomy kitchen are the dining room with ten-foot ceiling and living room with French doors and fireplace. A glass-surrounded breakfast area near the kitchen provides space for casual eating. Three bedrooms, all with walk-in closets, dominate the left wing of the home. Bedroom 2 has an eleven-foot sloped ceiling. The master suite features a corner tub and a glass-enclosed shower with seat. Note the large utility room and storage space in the garage.
