To whom it may concern,

I meet with Virginia Rice from Freedom Homes on Monday, May 5, 2003 at Evelyn Lane in Iredell County. Freedom Homes will be installing a mobile home on this property, which Energy United has an existing 30' right of way on. This right of way extends 15' on each side of the centerline of Energy United's power line. As I told Mrs. Rice, as long as they stayed off the right of way with the home there would be no problem with the location of the home. This would be 15' off the centerline with all decks, swimming pools, out buildings, or any other structure that may be a hazard or endanger the safe and proper operation or maintenance of said lines. Mrs. Rice also asked about installing a septic field on our right of way, there would be no hazard in this, but Energy United will not be responsible for any damaged property while maintaining our lines or our right of way. If you have any further questions please feel free to give me a call at 704-896-5407.

Sincerely,

Eric Blankenship
Energy United
