THE T. & J. PANEL
WASTE WATER TREATMENT SYSTEM

I, Randy Buie do hereby make application to the Fredell County Health Department to use the T & J PANEL SYSTEM in place of the conventional system drain line. I understand that in case of a malfunction I will be required to make necessary alterations as I would be with any conventional system malfunction.

I also give permission to the local health officials and T & J PANEL SYSTEM officials to inspect my system twice a year for proper functioning.
