Re: Application for improvement permit for **Troutman Family LTDP,** property site **121 Cub Farm Rd.,** Health Department file number **214372**

Dear **Troutman Family LTDP**

The **Iredell** County Health Department, Environmental Health Division on **11/20/15** evaluated the above referenced property at the site designated on the plat/site plan that accompanied your improvement permit application. According to your application the site is to serve a **3 bedroom residence** (describe facility – example: 3 bedroom residence, 10 employee office) with a design wastewater flow of **360** gallons per day. The evaluation was done in accordance with the laws and rules governing wastewater systems in North Carolina General Statute 130A-333 including related statutes and Title 15A, Subchapter 18A, of the North Carolina Administrative Code, Rule .1900 and related rules.

Based on the criteria set out in Title 15A, Subchapter 18A, of the North Carolina Administrative Code, Rule .1940 through .1948, the evaluation indicated that the site is UNSUITABLE for a ground absorption sewage system. Therefore, your request for an improvement permit is DENIED. A copy of the site evaluation is enclosed. The site is unsuitable based on the following:

_____ Unsuitable soil topography and/or landscape position (Rule .1940)
_____ Unsuitable soil characteristics (structure or clay mineralogy) (Rule .1941)
_____ Unsuitable soil wetness condition (Rule .1942)
_____ Unsuitable soil depth (Rule .1943)
_____ Presence of restrictive horizon (Rule .1944)
__X__ Insufficient space for septic system and repair area (Rule .1945)
__X__ Unsuitable for meeting required setbacks (Rule .1950)
_____ Other (Rule .1946)

These severe soil or site limitations could cause premature system failure, leading to the discharge of untreated sewage on the ground surface, into surface waters, directly to ground water or inside your structure.

The site evaluation included consideration of possible site modifications, and modified, innovative, or alternative systems. However, the Health Department has determined that none of the above options will overcome the severe conditions on this site. A possible option might be a system designed to dispose of sewage to another area of suitable soil or off-site to additional property.

For the reasons set out above, the property is currently classified UNSUITABLE, and no improvement permit shall be issued for this site in accordance with Rule .1948(c).

However, the site classified as UNSUITABLE may be classified as PROVISIONALLY SUITABLE if written documentation is provided that meets the requirements of Rule .1948(d). A copy of this rule is enclosed. You may hire a consultant to assist you if you wish to try to develop a plan under which your site could be reclassified as PROVISIONALLY SUITABLE.

You have a right to an information review of this decision. You may request an informal review by the soil scientist or environmental health supervisor at the local health department. You may also request an information review by the North Carolina Department of Health and Human Services regional soil scientist. A request for informal review must be made in writing to the local health department.

You also have a right to a formal appeal of this decision. To pursue a formal appeal, you must file a petition for a contested case hearing with the Office of Administrative Hearings, 6714 Mail Service Center, Raleigh, NC 27699-6714. To get a copy of a petition form, you may write the Office of Administrative Hearings or call the office at (919) 431-3000 or from the OAH web site at http://www.ncoah.com/forms.html. The petition for a contested case hearing must be filed in accordance with the provision of North Carolina General Statutes 130A-24 and 150B-23 and all other applicable provisions of Chapter 150B. N.C. General Statute 130A-335 (g) provides that your hearing would be held in the county where your property is located.

Please note: If you wish to pursue a formal appeal, you must file the petition form with the Office of Administrative Hearings **WITHIN 30 DAYS OF THE DATE OF THIS LETTER.** The date of this letter is **Nov. 30th, 2015**. Meeting the 30 day deadline is critical to your formal appeal.

If you file a petition for a contested case hearing with the Office of Administrative Hearings, you are required by law (N.C. General Statute 150B-23) to serve a copy of your petition on the Office of General Counsel, N.C. Department of Health and Human Services, 2001 Mail Service Center, Raleigh, N.C. 27699-2001.

Do not serve the petition on your local health department. Sending a copy of your petition to the local health department will not satisfy the legal requirement in N.C. General Statute 150B-23 that you send a copy to the Office of General Counsel, N. C. Department of Health and Human Services.
You may call or write the local health department if you need any additional information or assistance.

Sincerely, Justin Henderson

DOCUMENTATION TO AUTHORIZE AN OWNER'S LEGAL REPRESENTATIVE

Applications for permits require the "signature of the owner or owner's legal representative" (15A NCAC 18A .1937). If the owner does not sign the application himself or herself, they can submit any one of the following documents to designate their legal representative:

Power of Attorney; Real Estate Contract; Estate executor; Bankruptcy trustee; Court ordered guardianship

In the absence of the above documentation, the property owner may provide the local health department with documentation that designates a legal representative. A property owner may:

Complete this form to document his or her legal representative, or provide his or her own form that contains the information in this form.

If there are multiple property owners, then all property owners must sign the form that designates a legal representative.

By signing a form that designates a legal representative for purposes of 15A NCAC 18A .1937, the property owner authorizes that representative to act on their behalf in matters pertaining to the application and permitting process, including signing or receiving any application, document or permit. The owner retains full responsibility to meet all permit conditions specified by the local health department.

I, Lonnie Troutman, am the legal owner(s) of the property located at 121 Cub Farm Drive Statesville, NC 28677, identified as PIN (Parcel Identification Number) 4703-46-1524, located in Iredell County, North Carolina.

I do hereby authorize (**print legal representative/company name**) _____, _____, to act as an agent on my behalf in applying for/signing/obtaining any of the documents described below.

- Application for Improvement Permit (IP) / Authorization to Construct (AC)
- Improvement Permit (IP) / Authorization to Construct (AC)
- Application for soil-site evaluation (new/repair)
- Application/permit for private drinking water well/well abandonment
- Application for Compliance Inspection

I agree to abide by all decisions and/or conditions between the legal representative acting on my behalf and the Iredell County Department of Public Health, Environmental Health Division.

ENVIRONMENTAL HEALTH REQUIREMENTS for SEPTIC PERMITS

The following items must be completed PRIOR to the SUBMITTAL of the Improvement Permit (IP) Authorization to Construct (AC) / Existing System application packet.

*** Initial each statement to indicate you have read and agree. ***

LH **Complete all Environmental Health forms**: septic system application, site plan, new well water application (if applicable), and sign this green sheet after you have completed all items. Include a copy of the site Zoning Permit. NOTE: *A Zoning Permit is not required for septic system repairs or expansion where no addition is being made to an existing structure.* All applications requiring zoning must submit completed paperwork and applicable fees to *CENTRAL PERMITTING* before any name will be placed on the service request (appointment) list. Applications not requiring zoning may be submitted and paid for at Central Permitting in Statesville OR the Mooresville office of Environmental Health. Only properly completed applications will be placed on the service request list on a first come, first serve basis. **Incomplete applications will be returned to the applicant.**

LH **Lots must be cleared** to allow access and provide good visibility. Structure footprint must be visible and adequate area for septic drain field and repair area must be cleared sufficiently to provide staff room to move about freely, shoot laser level elevations as well as test soil with hand auger, etc. **If they cannot access the lot, you will incur a $100 revisit fee AFTER clearing the lot before Environmental Health will return to the site.**

LH Clearly **mark all property corners**. Flag all property lines every twenty-five feet if adjacent corners are not visible when standing on any given corner. Property lines must be flagged by a licensed NC surveyor and easily identified. 'Mow lines' and/or fence lines do NOT constitute marked lines.

LH **Stake or flag the footprint of the proposed building structure or addition to match site plan application**. Without a footprint Environmental Health cannot determine the location and size of a proposed septic system.

LH Where an **Authorization to Construct (AC) is desired**, submit a recorded copy of the plat for the subdivision lot and include a legible copy of the basic floor plan not larger than 11" x 17" for each floor in the structure. Be sure to include any decks, porches, etc.

LH In the event that backhoe pits are required for soil evaluation (which cannot be determined until Environmental Health staff arrive to test soil) understand that **you are responsible for securing these services.** This may delay the permitting process, but will not result in the application being returned to the bottom of the work list. You must coordinate with the Environmental Health Specialist when test pits are to be dug. The application will be worked back into the schedule as quickly as possible.

Any site not meeting the above requirements when staff arrives for the evaluation will result in a $100 site revisit fee and the request being returned to the bottom of the service request list. Once work by Environmental Health staff begins, the up-front fees paid toward securing any health department permit are non-refundable. Refunds for work not started, due to a customer changing their mind or plans, are subject to an administrative fee of $50 to defray a portion of the costs of processing the refund.

By signing below I am acknowledging the above specifications have been met and the site is READY to be evaluated.
