

UNFINISHED

Arts and Crafts

Cedar shakes, siding and stone blend with the Craftsman details of a custom design in this stunning home. The plan's open design and non-linear layout is refreshing and functional. The second-floor loft overlooks a centrally located and vaulted great room, and the breakfast area with a tray ceiling is virtually surrounded by windows to enhance the morning's light. The secluded first-floor master suite features a bay window, tray ceiling, walk-in closet and private bath. The second-floor family bedrooms are illuminated by rear dormers.

1/2 BATH
NO SHOWER
