Second Floor: 595 square feet
Total: 2,175 square feet
Bedrooms: 3
Bathrooms: 2½
Width: 48'-0" Depth: 69'-6"

Today's tastes are more eclectic and household arrangements come in new flavors—so a flexible floor plan is key. Traditional formality asks for well-defined rooms, while the demands of sophisticated lifestyles call for wide-open spaces that bend to patterns of living. This plan marries the best of both casual and elegant elements for a home that breathes with individual style. The formal dining room opens through decorative pillars to the two-story great room, which features a fireplace. French doors lead from a private vestibule to the deluxe master suite, a retreat which has an angled whirlpool tub, a glass-enclosed shower, twin vanities and a rambling walk-in closet.
