Design 489023

Square Footage: 1,373

Design by
Larry W.
Garnett &
Associates, Inc.

● While relatively small in terms of square footage, this home possesses the design characteristics and fine craftsmanship of another era. Influenced by Shingle Style cottages, the exterior features a sloping gable with a gentle curve over the front porch. Shingle siding is accented by expansive windows surrounded with wide wood trim. Inside, the living area offers a fireplace and built-in media center. Decorative columns separate the living and dining areas. French doors open to a 6' x 17' rear porch from both the dining area and the master bedroom. The well-appointed master bath has ample linen storage, a private water closet and a garden tub with adjacent glass-enclosed shower.

WIDTH 62'
