A hipped roof, dormers, and plenty of muntin windows with keystones give this traditional home a welcome invitation. Located in the center of this home, the family room features a built-in entertainment center—note the sliding-door access to the rear screened porch and courtyard. A two-story dining room shows off elegance as it accesses the gourmet kitchen. The lavish master suite includes a private bath and a huge walk-in closet. Completing this plan are three additional family bedrooms, located to the far left of the home, and a full bath. All three family bedrooms include walk-in closets.
