RE: Septic layout for Lot 36 Graystone

Please review the Kenthurst house plan. The house will be reversed from the drawing so the drive on the same side as the house already approved. I will not be building the extra Garage on the side. There will not be a basement on this house. I will make sure the septic lines are not approached with the layout. Please review and let me know if this is acceptable. My number is 704/902-1443, if you have any questions.

Thank you,

Rob Wright
