* Green Sheet

HEALTH DEPARTMENT REQUIREMENTS

The following numbered items must be completed prior to the submittal of the Improvement Permit / Authorization to Construct / Existing System application packet. Questions? Call the Iredell County Health Department between 8-9am, Monday-Friday. Statesville Office 704 878-5305, Mooresville Office 704 664-5281

1. Complete **all** Health Department forms: septic system application, site plan, signed green sheet and water well application (if applicable). Include in submittal a copy of the zoning permit (not required for septic system repair or expansion where no addition is made to the building structure).

2. Clearly mark **all** property corners. Flag side lines every twenty-five feet if rear corners are not visible when standing on front corners.

3. Stake or flag the footprint of the building structure.

4. Where an Authorization to Construct (AC) is desired, submit a recorded copy of the plat for a subdivision lot (if not already on file at the Health Dept.) and also include 2 legible copies of a basic floor plan not larger than 11" x 17" for each floor in the structure.

5. Any site not having adequate visibility (50' in any direction) must be cleared of "undergrowth" to allow access and provide good visibility.

6. All completed paperwork must be submitted to the Health Department for review before any name will be placed on the service request (appointment) list. **Only properly completed applications will be placed on the service request list on a first come, first serve basis. Incomplete applications will be returned to the applicant.**

Completed permits must be picked up promptly. If it becomes necessary to send a certified letter, postage will be charged (return receipt) and any permit not picked up by the deadline in the letter will be voided. **All monies paid to that point are non-refundable.**

Any site not ready when staff arrive for the evaluation will result in the applicant being charged a site revisit fee and the request being returned to the bottom of the service request list.

By signing below I am acknowledging the above specifications have been met and the site is ready to be evaluated.

RE: Georgia Mills Plantation – Pilot Development – Lot 30 Fast Track

Date: March 19, 2008

Attached is the Fast Track information required to place Lot 30 Georgia Mills Plantation on your individual work list to review the septic system layouts. Please call when you are ready to review the lot and we will meet you on the site.

The attached information is not an Improvement Permit or Authorization to Construct, and is only to assist the Iredell County Environmental Health Department (ICHD) with the site evaluation. The ICHD has to approve each lot and only the ICHD can issue these permits. The system should be installed according to the ICHD permits, policies, and NC rules. If the ICHD wishes to change tank locations, distribution devices, etc., this can be shown on the Improvement Permit.

All information and specifications were prepared in conjunction with the Fast Track Program for Iredell County and are for the sole use of Pilot Development in acquiring permits under the Fast Track Program. It is ultimately the Iredell County Health Department's responsibility to verify all specifications before permitting and/or septic system installation.
