Craftsman features, such as the low-pitched roof, overhanging eaves, square columns, and rustic materials, suit this home for many American neighborhoods as well as vacation settings. The empty-nester layout provides for a spacious and central gathering area with great outdoor spaces accessible at the top and left of the plan. The guest room at the front of the home may usually serve as a study. Homeowners will love the hard-working utility room near the kitchen, available as a laundry room, office, pantry, or mudroom.

Helpful Hint!

We offer a variety of foundations for diverse soil types and basement requirements.
