Mr. Bruce Porter
266 Lone Pine Rd
Statesville, NC

Dear: Mr. Porter

EnergyUnited has been contacted to grant permission to install a septic system within the limits of a right-of-way corridor maintained by the cooperative.

EnergyUnited does not have jurisdiction over land usage on privately owned property other than restrictions pertaining to structures erected in close proximity of energized lines. Our definition of structures is a physical building or other construction that will limit accessibility to the facilities within the right-of-way or restrict the safe operation of the facility.

There may be cases in which the cooperative may request the placement of drain lines to be adjusted where underground facilities exist. It is the responsibility of the landowner (or landowner's contractor) to make the necessary notifications for marking and / or locating of any buried facilities prior to excavating.

EnergyUnited would also want it understood by the landowner that we would not be liable for damage to drain fields / and or septic systems installed within the limits of the easement as a result of our access into the right-of-way.

Should you have any questions or desire to discuss this matter further, please advise.

Sincerely,

EnergyUnited Electric Membership Corporation

Jim Shaginaw
