Subject: Gilbert Barn
Attachments: Scan0038.pdf

Hey Justin,

Please see the attached. I think I now have you all the info we need for the Gilbert barn on Old Mocksville Road. I have a revised copy of the barn layout with the drains that were in the stables removed as they are to be. Also I have included specs on a GE washer Model GTWN4250DWS that they are to purchase stating usage of 16 gallons of water per load. We discussed before that they would likely use only one load about every other day, so plan on 5 loads per week.

Hope this helps and let me know if you should need anything further, Ryan Noble

Pros

You can choose from up to 16 wash cycles, including a quick wash and prewash.

Cons

The warranty for this top-load washing machine is only one year.

The Verdict: 5.65/10

In addition to being energy efficient, this top-load washing machine has quite a few wash cycle options.

The estimated total cost of water and power required to run the top-load washer for a year. Lower is better.

Review | Specifications | Images | Side By Side Comparison | Learning Center

The GE GTWN4250DWS top-loading washing machine is a traditional washer with an agitator style of washing. It takes the top spot among traditional top-load washing machines because of its numerous wash cycles, low water factor and affordable operating costs. You also have the choice of six wash options, three soil levels and six wash-and-rinse temperatures. With its tub capacity of 3.9 cubic feet, this top-load washer is sufficiently large enough to handle most laundry loads.

Although this GE top-loader isn't specifically a high-efficiency washer, it does much better than its traditional counterparts. You should expect to pay about $35 total annually on energy and water costs, which is significantly lower than other agitator-style machines on our lineup.

The 16 wash cycles include basic cycles for cleaning your clothes, such as delicates, towels and sheets and jeans. There are also specific whites and colors cycles and variants on those, such as light, normal and heavy.

This GE washer offers automatic load sense, which reduces the amount of water you use for each load of
