Bonus Room

The exterior of this home looks formal, thanks to its twin dormers, gables, and the bay windows that flank the columned porch, but the inside is contemporary in both design and features.

Features:

- Great Room: Centrally located, this great room has a 10-ft. ceiling. A fireplace, built-in cabinets, and windows that overlook the rear covered porch make it as practical as it is attractive.
- Dining Room: A bay window adds to the charm of this versatile room.
- Kitchen: This U-shaped room is designed to make cooking and cleaning jobs efficient.
- Master Suite: With a bay window, a walk-in closet, and a private bath with an oval tub, the master suite may be your favorite area.
- Additional Bedrooms: Located on the opposite side of the house from the master suite, these rooms share a full bath in the hall.
