Design S9143

Square Footage: 1,846

● While small in size, this home is rich with detail that will bring myriads of compliments. A wonderfully open living area features separation of space by the use of columns. The dining room has a 9' ceiling and is near the kitchen for easy serving. The living room has a fireplace with flanking transom window as its central focus. A glass-surrounded breakfast room has French doors to the outdoors. Bedrooms are found on the right side of the plan. The master has a large walk-in closet and its own bath with double-bowl vanity and separate tub and shower. Two secondary bedrooms share the use of a full bath with double-bowl vanities.
